

Juvan Emanuel D. Paulo

BS Information Technology

with Specialization in **Mobile and Internet Technologies**

Caloocan City, Philippines 1421 | juvanpaulo1@gmail.com | +(63) 9996874402 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Cloud-focused Backend Developer transitioning into DevOps Engineering, with proven experience architecting APIs and provisioning cloud infrastructure. Adept at deploying server environments (Microsoft Azure, Google Cloud Platform), integrating third-party systems, and automating backend processes. Brings a strong foundation in translating high-level business logic into scalable, deployable technical solutions.

Experience

GenWATT Energy Solutions | Jan 2026 – Present

Backend Developer | (June 2026 – Present)

- Migrated OCPP API services and compute instances from **Azure** to **GCP** to optimize infrastructure costs and resource management.
- Built **GitHub Actions CI/CD pipelines** for the API repository to automate staging and production deployments.
- Hardened GCP Compute instances with strict **firewall rules** and **reverse proxy** for automated HTTPS/TLS encryption.
- Configured **dynamic DNS** and **proxy routing** to secure staging endpoints for physical hardware communication.

Backend Developer Intern | (Jan 2026 – May 2026)

- Communicated directly with the executive leadership to align technical implementation to the company's vision.
- Developed and maintained backend architecture for the EV charger booking application.
- Integrated **Paymongo** payment gateway APIs for secure transaction processing for EV charger bookings.
- Led the integration of physical EV chargers with the OCPP API using vendor-provided software and custom SteVe OCPP server endpoints for real-time hardware communication.

Key Projects

Kidsync: Smart Student Drop-off and Pick-up Verification System

Tech Stack: Flutter, Dart, Supabase, Node.js, PostgreSQL, ESP32, RFID

- Created a **cross-platform** mobile and web app with **Flutter** to handle attendance tracking and automated notifications.
- Built an IoT access device using **ESP32**, **RFID** readers, and servo motors to automate physical student verification.
- Developed custom **Node.js** APIs to stream real-time scan data from edge hardware to the **Supabase** backend.
- Configured **Supabase** for real-time data sync, secure user authentication, and live attendance logging.

Personal Portfolio Website | [Link](#) | [GitHub](#)

Tech Stack: Next.js, Tailwind CSS, Azure Static Web Apps, GitHub Actions, SSL, DNS Management

- Provisioned and deployed a web application to a custom domain utilizing **Azure Static Web Apps**.
- Established **CI/CD pipelines** via **GitHub Actions** to automate testing and deployment workflows.
- Configured custom **DNS** records and managed secure connections via **SSL handshakes**.

MaaS (Math-as-a-Service) | [GitHub](#)

Tech Stack: Terraform, Docker, Azure, GitHub Actions, Nginx

- Architected a scalable microservices backend utilizing **FastAPI** through **Python** and **PostgreSQL**.
- Implemented **Nginx** as a reverse proxy for secure internal traffic routing.
- Containerized the application environment using **Docker**.
- Implemented **Infrastructure as Code (IaC)** utilizing **Terraform** for automated resource provisioning, and established **CI/CD pipelines** via **GitHub Actions** to streamline delivery.

Technical Skills

- **Cloud & Infrastructure:** Microsoft Azure, Google Cloud Platform (GCP), Docker, Terraform, Linux/Bash
- **DevOps & CI/CD:** GitHub Actions, Git, GitHub
- **Backend & API:** TypeScript, Python (FastAPI), PHP, Hono, REST, tRPC, API Integration (PayMongo)
- **Databases & BaaS:** SQL, PostgreSQL, MySQL, Supabase, Firebase Firestore
- **Frontend & Mobile:** React Native, Expo, Flutter, Dart

Education

Bachelor of Science in Information Technology with Specialization in Mobile and Internet Technologies (BSIT – MI)

- National University – Fairview | Aug 2026
- **Awards:** Magna Cum Laude, Dean's Lister (2022 – 2026), SM Foundation Scholar (2022 – 2026),

Certifications

- Microsoft Certified Azure Fundamentals (AZ-900)
- Oracle Cloud Infrastructure 2025 AI Foundations Associate
- Oracle Cloud Infrastructure 2025 Foundations Associate
